

FIRE ISOLATOR

Datasheet Fire Blanket Ultimate Forklift

Product description

The Ultimate Forklift Fire Blanket is designed for lithium-ion battery fires in forklifts and other electric vehicles used in warehouses and storage areas. Tested to top fire safety standards, the FI-BL0707 (and larger FI-BL0808) has proven its performance in real-life fire scenarios. It contains flames, limits toxic smoke, and creates the ideal conditions for aerosol units - helping to prevent fire spread and reduce damage to your facility.

The FireBlanket is reusable and can be cleaned. It can stand peak temperatures of 1600 °C, and can withstand 1200 °C for more than 50 hours. The Ultimate Forklift Fire Blanket is easy to deploy by 2 people.
